

M.S.A.D. #28 REPORT CARD

Rockport Elementary School
Camden-Rockport Middle School
Latest update: January, 2010

Each year students in grades 3 – 8 in Maine schools are required to participate in the Maine Educational Assessment (MEA), which tests the degree to which students have achieved the standards of the Maine Learning Results. These newly revised "Maine Learning Results: Parameters for Essential Instruction" may be viewed online at <http://www.maine.gov/education/lres/pei/index.html> These tests are administered as part of state legislated requirements and "No Child Left Behind" federal mandates.

Individual student scores and grade level scores are reported for each grade level as a whole and for the following subgroups of students: students of different ethnic groups, students with identified disabilities, students who are economically disadvantaged, students who are migrants, and for gender subgroups of male and female students.

Students taking the test are identified in one of four categories for each subject area tested: (1) those who exceed the standards, (2) those who meet the standards, (3) those who partially meet the standards, and (4) those who do not meet the standards.

In addition to the most recent test results which will be updated each year, demographic data is also being reported.

Persons with questions about this report card should contact Michael Weatherwax, Assistant Superintendent of Schools at michael_weatherwax@fivetowns.net
