

October 2018 Facility's Report

We have light fixture that need to be replaced. We are in beginning stages of comparing LED ballasts v. LED light fixtures.

Criterium is no longer taking new clients. However, they referred us to their sister company who will honor the quote we have in our budget. Next steps will be a meeting with the facilities committee and new company once they have a written proposal.

The barn project is underway. Volunteer (pre-K parent) has scraped the paint. 5th grade will be painting a farm mural on the Pre-K side under the direction of Mrs. Cooper. Volunteers will paint the rest. This may be a community day in the works.
