Recalls information, takes notes, categorizes and lists sources

SPEAKING and LISTENING

Presents and articulates ideas at understandable pace

Grade 5 - MATHEMATICS

Effort

NUMBER and QUANTITY

Reads, writes and uses decimals to 1,000ths place

Compares and orders decimals to the 1,000ths using $<$, $>$ and $=$

Rounds decimals up to the 1,000ths

Uses standard algorithm to multiply multi-digit numbers fluently

Uses standard algorithm to divide numbers by 2-digit divisor

Adds decimals up to the 1,000ths

Subtracts decimals up to the 1,000ths

Multiplies decimals up to the 1,000ths

Divides decimals up to the 1,000ths

Adds/subtracts fractions/mixed numbers with unlike denominators

Multiplies fractions

Divides whole number by fractions

ALGEBRA

Uses parenthesis, brackets or braces

Solves simple algebraic equations with one variable

Finds the rule for a table and solves

GEOMETRY

Identifies and graphs ordered pairs (coordinate graphs)

Categorizes 2-D figures based on properties

Measures and identifies angles (obtuse, right and acute)

Finds the volume of a rectangular prism

Calculates perimeter and area of 2-D polygons using formulas

STATISTICS and PROBABILITY

Converts measurements within same system of measurement

Measures to the nearest $\frac{1}{8}$ inch and millimeter

Reads, constructs and interprets circle graphs and line graphs
